

Grade 2: Business Players

Attack

Nº 1 OBJECT

INSTRUCTION

To develop confidence and accuracy in striking the first Tone. Remove the instrument from the mouth on the second beat of the measure and replace it on the fourth beat. This removing applies to all Attack Exercises. Keep strict Time. On the first beat of the next measure play a strong, bold, firm, clear, clean Tone; with no breathy or windy sound before it.

CAUTION

Not too short, not too loud, and not cut off at the end with the tongue.

Nº 2 OBJECT

INSTRUCTION

Unaccented Attack. Degrees of Power. Tone Quality.

Same as Nº 1. Fine crescendo and diminuendo. Try to cultivate a steady, pure Tone. This is accomplished by striving to get the fullest amount of sound with the smallest amount of breath.

CAUTION

This Exercise requires many months of daily practice, and can always be used as a Standard Exercise. It contains all the fundamentals for Tone-Production. Of course do it from memory, and use your imagination in producing effects; as Bold, Tender, Echo, etc. *

* Wait at the double bar.

**Nº 3 OBJECT**

To develop Sureness in Soft High notes after Loud Low notes.

INSTRUCTION

See former Numbers. Make good contrast in power.

CAUTION

Don't mind the Breaks. Everybody makes them. Do the best you can all through, and try to do it better every day. If it were easy anybody could do it. Be sure to count the silent measure. Don't neglect Nº 2.

Grade 3: First Chair

Attack

Nº1 OBJECT

To develop Confidence and Control.

INSTRUCTION

Always remove at the Rests and double bars.

Observe the power signs. Try to play the exercise with some musical expression and effective style. Make the unaccented notes very clear and distinct. Each 4 measures constitute a single study.

CAUTION

Never neglect Attack Practise for a long time; it is the mainstay of Confidence. Don't expect perfection. This is, and will always be the TEST for every Brass Player. It is just as hard for the other fellow! Grade II prepares the student for these Exercises.

The musical score is an eight-measure exercise in 4/4 time, divided into four groups of two measures each. The dynamics and articulation are as follows:
